## 6 in 1 Multifunction USB-C Docking Station

Model: HKDC1500600

### Interface Descriptions

### Warm Tips

1. USB-C female port supports up to 100W USB C PD charge but you need to connect the cable and adapter that supports fast charging.
2. When not in use, disconnecting or “safe removal” of an external device from the product firstly, then disconnecting this product from your PC.
3. When the HUB is fully loaded, it may reach a surface temperature of around 136.4°F, this is normal for products of this kind.
4. Use HDMI port to connect MacBook, please select mirror mode or extended mode according to your needs.
5. Do not disassemble the product and please keep children away from it.
6. Store and use this product in a dry environment.
7. Do not plug in or out the product forcibly.

### Kindly Notes

Please make sure that the adapter is consistently connected when charging.  
Charging speed also depends on if the power adapter and cable support quick charge or not.

### Product Description

The USB-C multifunction docking station is designed to solve the problem of not being able to use more devices because there are too few device ports.

### Package Includes

1×Multifunction USB-C Docking Station

1xUser’s Manual

### Product Specifications

Material:	Aluminum Alloy
Cable Length:	6’’
Input:	USB-C
Output:	1*USB-C PD, 2*USB3.0,1*HDMI, 1*SD,1*TF
USB-C Port:	PD fast charging port up to 100W
USB Port:	The theoretical transfer speed of USB3.0 is up to 5Gbps.
HDMI Port:	Resolutions up to 4K@30Hz
SD/TF Port:	104MB/s

### FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference,and  
(2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
Reorient or relocate the receiving antenna.  
Increase the separation between the equipment and receiver.  
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
Consult the dealer or an experienced radio/TV technician for help.

### IC warning
